

In the Claims

**Please CANCEL claims 15-18 without prejudice such that  
the claims will read as follows:**

Claims 1-13 (cancelled).

Claim 14 (previously presented): A brush apparatus comprising:  
a scrubber brush having:

    a surface adapted to contact a surface of a  
substrate to be scrubbed; and

    a complexing agent coupled to the scrubber  
-brush surface, the complexing agent adapted to chemically bond to  
metal particles.

Claims 15-18 (cancelled).

Claim 19 (previously presented): An apparatus comprising:  
a scrubber brush comprised of a homogeneous  
material comprising a complexing agent adapted to chemically bond  
to metal particles, and having a surface adapted to contact a  
surface of a substrate to be scrubbed.

Claim 20 (previously presented): A scrubber comprising:

    a substrate support adapted to support a  
substrate;

    a brush coupled so as to contact a substrate  
supported by the substrate support, the brush having:

        a surface adapted to contact a surface of a  
substrate to be scrubbed; and

        a complexing agent coupled to the brush  
surface, the complexing agent adapted to chemically bond to metal  
particles; and

        a mechanism adapted to generate relative movement  
between the substrate and the brush.
